To obtain the full benefit of the treatment to maximize the financial savings, the CDD asks residents to do the following:

1. **ALL OUTSIDE IRRIGATION MUST BE TURNED OFF.** So that the contractor can apply the treatment in a dry condition, please make sure your irrigation system is turned off between 6:00 pm the day before the work is scheduled to be done in front of your home and midnight of the work day.

2. **PARKING:**

- a. **DRIVEWAY ACCESS:** During the specific times the roads are closed and the treatment is drying/curing, you will not have access to your driveway. Any damage done to private property due to traveling over a treated street earlier than requested will not be repaired by the contractor or the CDD, and any damage done to the pavement treatment because of not complying with this request will be documented for possible legal action.

- b. **WHERE TO PARK:** Park in your neighborhood on the street in a phase that is not scheduled for that day. Only park on one side of the road per the image to the right to allow emergency access.

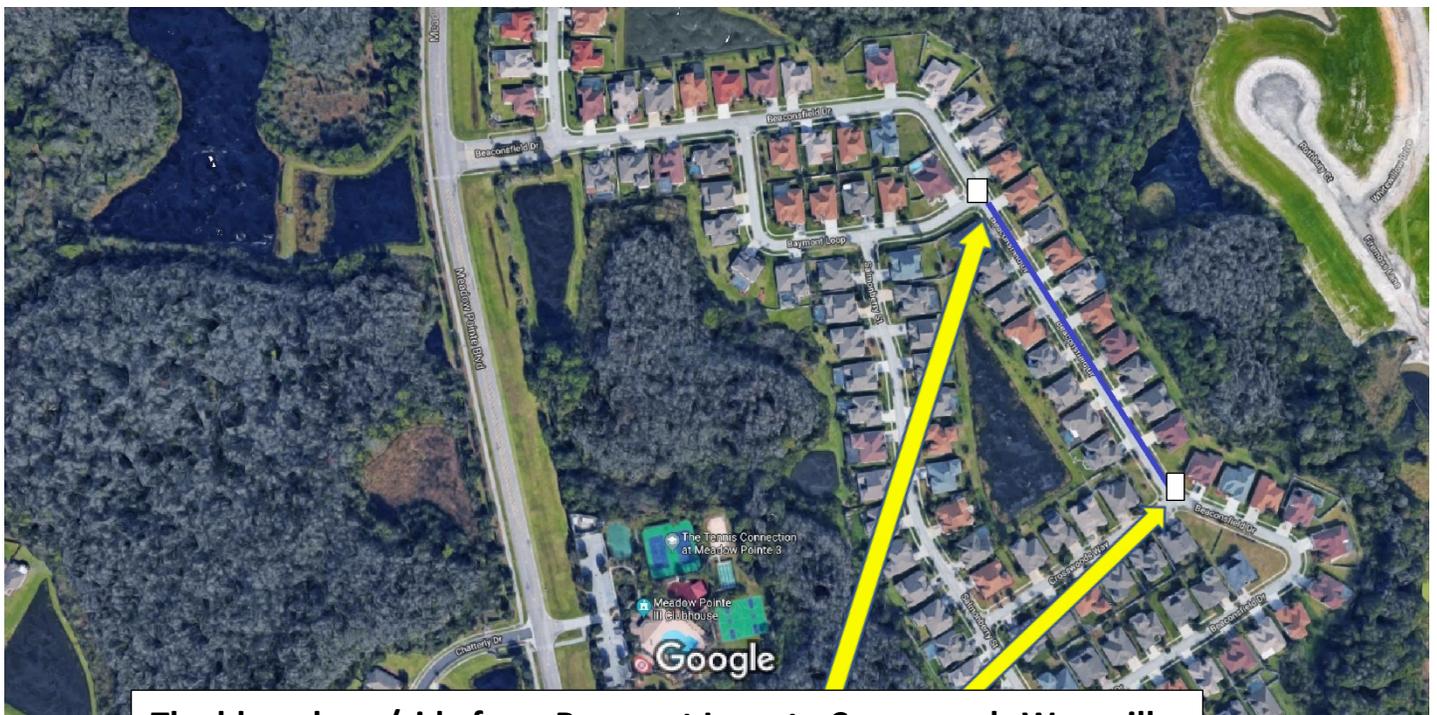

3. **SERVICE VENDORS:** Please ask any service vendors (**landscapers**, special deliveries, construction, etc.) to avoid working on the days that the treatment is planned to be done.
4. **GARBAGE & MAIL:** The contractor is working to notify garbage collection and mail delivery services of the work plan.
5. **PROJECT CONTACT:** Please contact the following for any construction questions related to the project: Whitaker Contracting 813-701-2050, Julie (407) 965-6249, or Tonja Tonja.Stewart@stantec.com
